Source:	The Ministry of Agricultural, Fisheries, and Water Resources		
Description:	The Garlic Farming Project focuses on the sustainable and high-efficiency production of premium-quality garlic using state-of-the-art drip irrigation techniques. Aimed at meeting the increasing demand for garlic in regional and international markets, this project integrates advanced farming practices with value-added processes such as drying, peeling, and packaging. The processed garlic will be ready for export to neighboring markets, positioning the project as a key player in the agricultural export sector
