

Investment Opportunity: Project for Cultivation of Leafy Vegetables in Greenhouse

Name:	Project for Cultivation of Leafy Vegetables in Greenhouse		
Sector:	Agriculture	Location:	Al Najd Agricultural City in Al Mazyona
Total OMR:	1600000.0	Internal ROI (%):	24.0%
Payback Years:	3	Implementation Duration:	1.0
Reference:	MOC/01225	Type:	featured
Source:	The Ministry of Agricultural, Fisheries, and Water Resources		
Description:	This project aims to establish a modern, large-scale greenhouse farm for the production of high-quality leafy vegetables, including lettuce, arugula, coriander, and spinach. Using controlled environment agriculture (CEA) and advanced irrigation systems, the project targets consistent, year-round production with high yields and reduced water consumption compared to traditional farming. The produce will cater to local markets, the GCC region, and global markets, addressing growing demand for fresh, safe, and sustainably produced greens. The project is designed to align with national food security goals and promote agricultural innovation in the Dhofar region
