

Investment Opportunity: Production of Energy from End of Life Tires in Oman

Name:	Production of Energy from End of Life Tires in Oman		
Sector:	Manufacturing		
Total USD:	1073000.0	Internal ROI (%):	10.0%
Payback Years:	6	Implementation Duration:	1.6
Reference:	OPP/00503	Type:	featured
Source:	Ministry of Commerce, industry and Investment Promotion		
Description:	In pyrolysis plant the waste tires are fed in to the reactor vessel and initial heat is provided with the help of wood, coal, gas or oil under controlled conditions of temperature and pressure. The process will bring about molecular restructuring of rubber and convert in to vapour and gases.
