Manufacturing Sector Overview

Overview of Military Fabrics production in Oman 2025

Oman's military fabric production is still limited but gaining attention through defense partnerships and growing demand for coated and protective fabrics. With government support and industrial plans, the country aims to gradually build local capabilities and join the regional defense textile supply chain.

Market Attractiveness

Global Market +6%

CAGR (2024-2034) in the Military Fabrics production

\$6.6 billion

Net global Military Fabrics market size value in 2024

Active governments in the Military Fabrics market

Key market players in the Military Fabrics project

Overview Opportunity

Description

The manufacturing of military fabrics aims to meet the general demand for various types of fabrics required by members of the military and security forces. Moreover, it is important to enhance self-sufficiency and reduce reliance on imports for essential defense textiles.

Rationale

Military and security institutions require a continuous and reliable supply of high-quality fabrics for uniforms and protective wear. Local production ensures faster delivery, customization to national standards, and improved supply chain resilience, especially during global disruptions.

Key indicators

Total Investment Value	4,608,000 OMR
IRR	%15
Project Capacity	400,000 units annually
Land Availability	10,000 sqm

Demand Analysis

List of supplying markets for a product imported by Oman in 2024 (Mirror)

Product: 5903 Textile fabrics impregnated, coated, covered or laminated with plastics (excl. tyre cord fabric of high-tenacity yarn of nylon or other polyamides, polyesters or viscose rayon; wallcoverings impregnated or covered with textile materials; floor coverings)
