Manufacturing Sector Overview

Overview of computers and peripherals production in Oman 2025

Oman imports most computers and peripherals, but market demand is growing. Government support for digital transformation and smart manufacturing is paving the way for future local production.

Market Attractiveness

Global Market +10%

CAGR (2024-2034) in the computers and peripherals production

\$471 billion

Net global computers and peripherals market size value in 2024

Active governments in computers and peripherals market

Key market players in the computers and peripherals project

Overview Opportunity

Description

This investment opportunity specializes in the production of all types of computers and their various peripherals, meeting the growing needs of businesses, government institutions, and individuals. With increasing digital transformation across sectors, the project offers strong market potential, supported by rising local and regional demand and opportunities for import substitution.

Rationale

This project supports Oman's digital growth by locally manufacturing computers and peripherals, reducing import reliance and meeting rising market demand. Backed by Vision 2040 and strategic location, it offers strong investment potential and job creation.

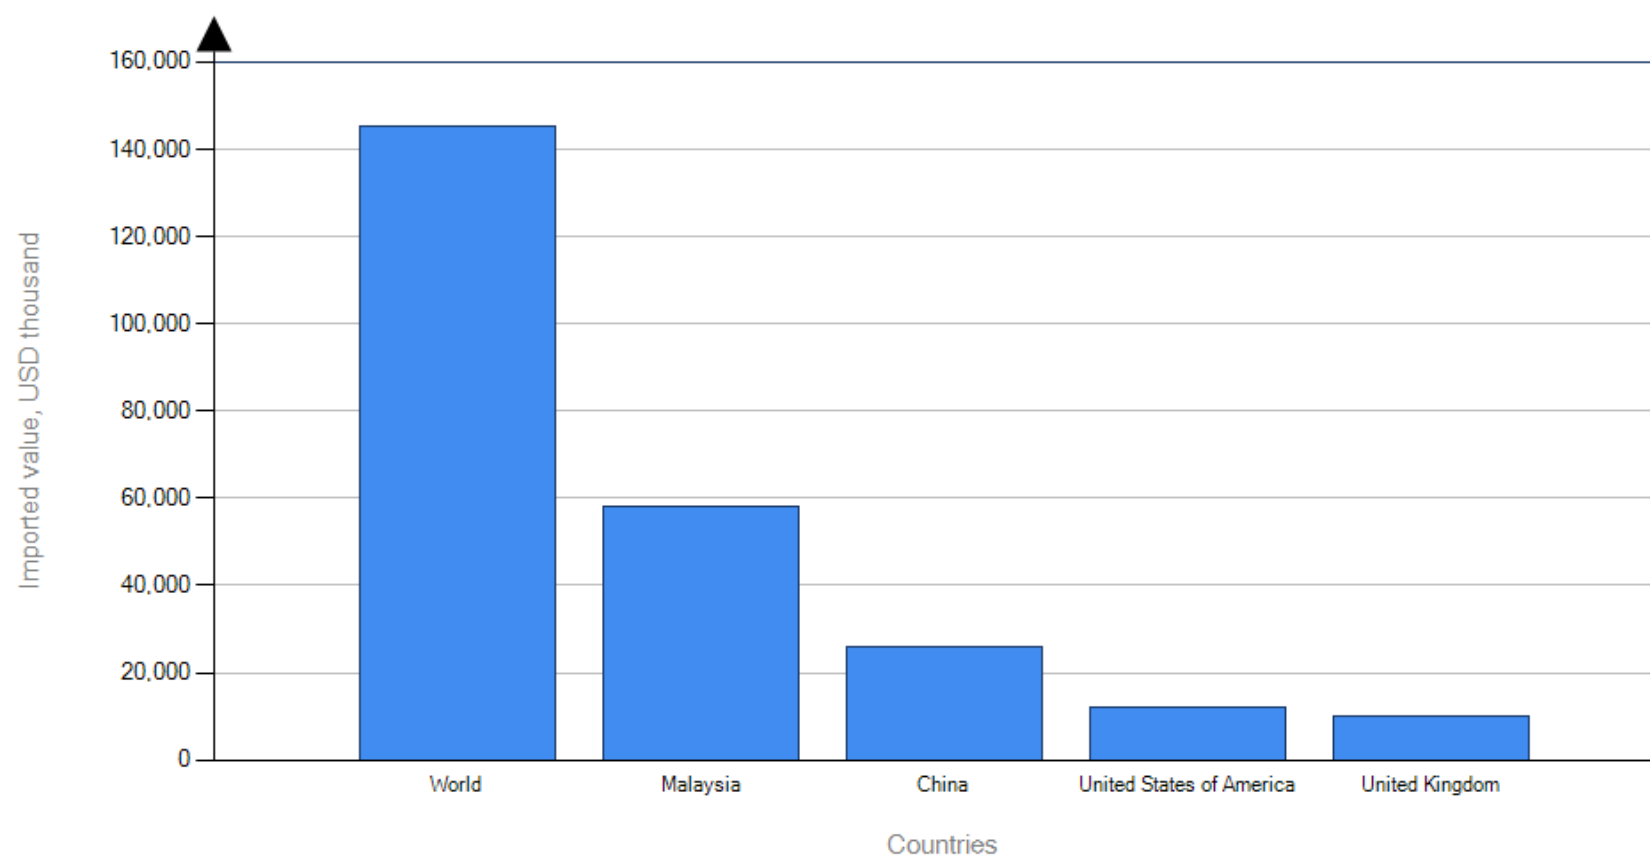

Key indicators

Total Investment Value	6,152,600 OMR
IRR	%16
Project Capacity	500,000 units annually
Land Availability	10,000 sqm
