WHY OMAN

- 100% Ownership
- 30 Years Tax Exemption
- No minimum capital
- Long Usufruct agreement
- Up to 10 Years Investor Residency
- 4th globally in quality of life index
- Market Access
- Free Trade Agreements with: USA, Singapore, South Korea & European Union

Sodium Silicate (SS) Manufacturing Industry Sector Overview

Geography: Salalah Industrial City offers strategic access to essential raw materials, including locally available silica sand, limestone, and quartzite, forming a solid foundation for downstream chemical industries. Its proximity to Salalah Port provides efficient connectivity to key GCC markets as well as major international shipping routes, facilitating seamless export and import operations. This advantageous location supports both regional supply chains and global trade opportunities.

Product: Sodium Silicate (Liquid and Glass forms)
Sector: Chemicals / Inorganic Chemical Products

Market Attractiveness

Global Market:

- 3.7% CAGR (2026–2033)
- Global Sodium Silicate Market Size (2025): USD 7.84 Billion

Overview Opportunity

Description:

A fully integrated Sodium Silicate manufacturing unit located in Salalah Industrial City, Oman. The project will produce sodium silicate in both glass and liquid forms primarily to cater to the detergent industry, as well as applications in drilling fluids, concrete hardening, water treatment, textile processing, and adhesives. The plant will utilize locally available Silica Sand and imported Soda Ash Dense.

Rationale

- Abundant local Silica Sand reserves
- Strategic location near raw material sources
- Growing demand from detergent industry in GCC
- First-mover advantage in specialized chemical production
- Part of Oman's economic diversification plan (Vision 2040)
- Lower production costs due to local raw materials and fuel availability.

Key indicators

Total Investment Value	**OMR 1.308 million (USD 3.4 million)**
IRR	**18.4%**
Payback Period	**6 years**
Land Availability	**6000 m²**
